

The Municipality of Aalborg's Startup Housing

Important information

What is Startup Housing?

Startup Housing ensures that you as a student, who start your study in the Municipality of Aalborg (Aalborg Kommune), will be sure to have a **temporary** roof over your head, if you have not found housing yourself. We will make sure that you have a place to stay until you soon find a place to live. Startup Housing lasts four months from study start mid August.

Startup Housing means that you will be sure to have accommodation *at BBBB in Aalborg, Cabins (the hostel)*, and you will receive a subsidy from the Municipality of Aalborg to help pay the expenses.

In order to be comprised by Startup Housing, you must comply with all the conditions laid down by the Municipality of Aalborg – see below under: "You must be particularly aware that".

It is very important that you get fully familiar with the rules and conditions, as you will not be covered by Startup Housing if you do not comply with *all* the requirements.

This pamphlet elaborates and explains *some* of the conditions. We will also inform you about the terms of accommodation under Startup Housing.

You must be particularly aware of:

1. You *must* comply with all the conditions in: Guidance – 'Startup Housing' in the Municipality of Aalborg, which you find at www.studieboligaalborg.dk in order to be covered by Startup Housing.
2. You *must* be registered as an active house hunter at Studiebolig Aalborg. However, you must also look for private housing.
3. Your applicant number at Studiebolig Aalborg *must* be noted after your name when you book accommodation at <http://uk.danhostelaalborg.dk/> (the hostel), e.g.

Name: Per Ingvin 70730

You will only receive a subsidy, if your applicant number is noted after your name. If your applicant number has not been noted, you must pay the full expenses for the accommodation *yourself*.

See the next page for how to find your applicant number at Studiebolig Aalborg.

4. Your stay at the hostel must be continuous.
5. You must book accommodation at the hostel not later than the day before you arrive. However, if you arrive on 31 August, you must book accommodation not later than 26 August.

The booking is open from 1 August to 15 September.

How to find your applicant number at Studiebolig Aalborg

When you have made an application on Studiebolig Aalborg's homepage, you will receive a user name and a password to use for logging on to your application. When you log on to your application, your applicant number will be shown – see the blue marking.

The screenshot shows the Studiebolig Aalborg website interface. On the left is a navigation menu with items like 'Forside / Frontpage', 'Boligoversigt / Accommodation survey', and 'Ansøgning / Application'. The main content area displays a welcome message and user information: 'Du er logget ind som / You are logged in as WA221396', 'Per Ingvin', 'Pingvinvænget 30', '2700 Brønshøj'. Below this, the applicant number 'Ansøgnummer: 73105' is highlighted in blue. Other details include 'Ansørggruppe / Application group: Gruppe B' and 'Indmeldelsesdato / Date of registration: 20-05-2014'. A blue arrow points from the text above to the highlighted applicant number.

Follow-up and control

The Municipality of Aalborg makes an ongoing control of whether you comply with the conditions in Startup Housing. If you do not comply with the conditions, the municipal subsidy no longer applies, and you must pay the full amount for accommodation at the hostel (or move out).

Where are you going to stay – accommodation

Startup Housing covers temporary accommodation at *BBB in Aalborg, Cabins (the hostel)*.

In peak periods and in case of considerable demand on Startup Housing you can be accommodated elsewhere or in residential containers in the hostel area. In these situations each cabin or residential container may hold up to six persons.

You yourselves must keep the cabins or residential containers (and possibly rooms) clean.

There is very limited room for personal belongings during the accommodation, so you should only count on having room for a suitcase.

There is no special safekeeping storage for valuables or other things at the hostel.

Facilities, etc.

The hostel has common kitchen and bathroom facilities. When many people stay at the hostel, there may be a wait for the kitchen and bathroom facilities.

The kitchen has a limited supply of kitchen equipment. You should bring or purchase kitchen equipment and utensils yourself (pot, pan, tableware, cutlery, etc.), if you want to cook in the kitchen. Remember to clean up after yourself. All cabins have small refrigerators, as do some of the residential containers.

The common living room has free Internet, but you can also buy Internet subscription at the reception.

The hostel has washing machines and clothes dryers, which you can use at a fee.

Questions/problems regarding the accommodation

You can contact the hostel staff, if you have questions or problems regarding the accommodation.

The hostel will do their best to handle all the different situations that arise as soon as the situation allows it, and are always willing to help.

***We wish you good luck finding a place to stay
and welcome you to the Municipality of Aalborg***
